INSTALLATION: Lan-chou Probable Military Installation Central South
(Lan-chou MR), China

LOCATION: The installation is in the south-central part of Lan-
chou, Kiangsu Province, China.

GENERAL: The installation consists of four billeting areas (Aa-
Ad), two vehicle/equipment storage areas (Ba-Bb), a
storage area (Ca), and two support areas (Ea and Ha).
This installation may not be military. Trucks and engi-
neering equipment have been observed at the installation
but never in significant numbers. The installation lacks
a military pattern, overall security, and has no history
of military weapons or military equipment. Area Ab was
added to the installation during 1968-1969. Other than
that the installation has been relatively stable since
1961. The wall surrounding area Ac suggests that this
was the original installation.

Accuracy Statement:

Conversion from
square meters to square feet was determined by the factor:
1 square meter equals 10.76 square feet.
